## Easter Egg Hunt

Adapted from a puzzle by Margery Albis in GAMES

Each of the puzzles below represents a field where Easter eggs are hidden. The numbers in the grid tell you how many of the adjacent squares (horizontally, vertically, or diagonally) contain eggs, and that should be all you need to solve each puzzle.

Puzzle \#1 How many eggs are hidden here? $\qquad$

|  | 1 | 1 | 3 |  |  | $\mathbf{2}$ |  |  |  |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
