A game of *Scrabble* was played by two sports enthusiasts, and peculiarly enough, every word was a sports-related word (or almost). The game was played on a regulation *Scrabble* board using the standard rules for *Scrabble*. The following abbreviations are used on the board: TWS = Triple Word Score; DWS = Double Word Score; TLS = Triple Letter Score; and DLS = Double Letter Score. The chart below gives the frequency and the value of the Letter tiles:

Tile	Frequency	Value		Tile	Frequency	Value
A	9	1		N	6	1
B	2	3		O	8	1
C	2	3		P	2	3
D	4	2		Q	1	10
E	12	1		R	6	1
F	2	4		S	4	1
G	3	2		T	6	1
H	2	4		U	4	1
I	9	1		V	2	4
J	1	8		W	2	4
K	1	5		X	1	8
L	4	1		Y	2	4
M	2	3		Z	1	10
				Blank	2	0

Play alternated between the two players until all the tiles were played except two. You must determine each word played, correct placement on the board, and the score at the end of the game. You are given a clue for each word played. The correct placement of the first letter of each word has been given to you. Remember that no more than SEVEN additional letters may be placed at one time. In this game, blanks were played only after all tiles of a particular letter were played (the two blanks were played in move #19 and move #24).
