Bible Verse Boxes #4 – Old Testament

A Puzzle by David Pleacher

To solve Bible Verse Boxes, drop the letters from each vertical column – not necessarily in the order in which they appear – into the empty squares below them to spell a familiar Bible verse reading from left to right, line by line. Words may continue from one line to the next; black squares indicate ends of words. These six verses are from a familiar Biblical passage in the King James Version but they are not in the correct order. After you have solved the six verses, arrange them in the correct order. Punctuation has been omitted.
